

**Fusion Painting
Inspection, LLC.**

Company Profile

Corporate Philosophy

Safety First

Inspections, whether they focus on fuel and water tanks, pipelines, concrete structures, water treatment systems, thermal spray applications, or anchorages, are pivotal in ensuring safety and operational efficiency. These evaluations delve deep into systems and networks, checking for adherence to industry standards, potential hazards, and functionality. For instance, water inspections scrutinize supply lines and drainage systems for contamination risks. Meanwhile, thermal spray inspections assess the durability of coatings, and anchorage inspections analyze the stability of anchoring systems. Regularly conducted, these inspections play a crucial role in averting accidents and preserving the longevity and integrity of various infrastructures.

COMPANY VALUES

HONEST

We prioritize transparency and truth, believing that trust is built on consistent honesty with all clients.

HELPFUL

We are committed to proactive assistance, ensuring needs are met with timely and effective solutions.

EFFICIENT

We value swift action and precision, ensuring optimal inspections.

QUALITY

Every inspection upholds rigorous standards, ensuring accuracy, and the utmost in professional integrity.

Company Information

Mission Statement

"FPI is dedicated to integrity, service, quality, and customer satisfaction in providing coating inspection, consulting, and corrosion control-related services and solutions. It is our mission to become the top coating inspection & consulting company in the world and to find ways for improvement and leadership in our industry while maintaining our solid foundation, business stability, and dependability. FPI strives to build and maintain a reputation as a high-quality, safety-oriented, performance-driven, and relationship-focused organization, which differentiates us and continues to serve as the foundation of our success by exceeding the expectations of our clients and employees"

- Jennifer Carr (President of FPI)

QP 5

INSPECTION COMPANY

**SSPC ACCREDITED
ORGANIZATION**

Guam's only AMPP QP5 Certified
Coating Inspection Company

Licensed in Guam and Alaska

+1(671) 858 -4429 | jcarr@fpiqa.com

285 Farenholt Ave Unit 303 PMB 1263, Tamuning, Guam

Fuel & Water Tank Inspections

Specializing in comprehensive assessments of fuel and water storage systems, we ensure safety, compliance, and optimal performance, safeguarding assets and the environment.

Pipelines Inspections

Dedicated to assessing the integrity and safety of pipeline infrastructures, we ensure efficient flow, prevent potential hazards, and uphold industry compliance standards.

Concrete Inspections

Focusing on the structural integrity of concrete installations, we identify potential flaws, ensure adherence to standards, and guarantee long-lasting, safe infrastructures.

Water Treatment Inspections

Expertly evaluating water treatment systems, we ensure optimal purification processes, adherence to safety standards, and the consistent delivery of clean, safe water.

Thermal Spray Inspections

Specializing in assessing thermal spray applications, we ensure coatings adhere to industry standards, optimizing durability, performance, and equipment longevity.

Anchorage Inspections

Delving into the stability and safety of anchoring systems, we ensure secure attachments, compliance with standards, and the prevention of structural failures.

Jennifer Carr has been in the coating industry for over 18 years and has been an inspector for over 17 years. She has 14 years' worth of experience in a supervisory position and has been involved in numerous coating projects involving both concrete and steel structures for many utilities, agencies, and owners. She has experience working with inorganic zincs, epoxies, FBE, coat-tar enamels, moisture cure products, vinyl, urethanes, alkyds, acrylics, vinyl esters, PVC linings, and numerous other generic types of coatings that include 100% solids high-build materials.

Ms. Carr is currently located on Guam performing QP5 Level III coating inspections as the lead inspector.

Jennifer Carr's Current Certifications:

- AMPP Senior Certified Coating Inspector (#21886)
- SSPC QP5 Level III
- SSPC C1 & C2
- SSPC C-3 Certified Competent Person
- SSPC QCS
- ASQ – Fundamentals I & II
- MPI – ACT # 1737
- MPI – ACT #A472
- SSPC CCB (Concrete Coating Basics)
- TWIC
- DBids Naval Base Guam
- DBids Andersen AFB Guam
- NACE CIP I, II, III (Peer review)
- OSHA 10/30 HOUR
- NAVSEA SPECS
- EM-385-1
- ABAA Field Auditor #10384
- EDI Field Inspector
